Re: Session Law 2011-291  
City of Asheboro  
Water Treatment Plant Filter Replacement  
TWC No. 2837-O

To Whom It May Concern:

This letter is intended to satisfy Session Law 2011-291. The City of Asheboro is moving forward with the construction of above listed project with an approximate cost of \$2,082,070.00. The project will replace filter media, remove existing surface wash systems, install two air blowers with enclosures and concrete pads, 6-inch and 4-inch stainless steel air piping with valves, air scour system modification of existing filter control panel, and all associated appurtenances for 8 filters. This work will reduce water loss and maintenance costs to the City of Asheboro. The project is being funded by NC DENR Division of Water Infrastructure with a DWSRF loan and will be submitted for Local Government Commission approval.

If you have questions or comments, please contact me or our Engineer, John C. Grey with The Wooten Company by phone at 336-626-5322 or email at [jgrey@thewootencompany.com](mailto:jgrey@thewootencompany.com).

Sincerely,

John N. Ogburn, III  
City Manager
